

Comune di Vogogna (provincia di Verbania)

VOGOGNA
BORGO CITTA' TERRITORIO

CONCORSO DI IDEE

Abstract

Object of the competition is the achievement of a sense/perception of unity between the “Borgo”, valuable historic centre destination of cultural tourism, and the part of the town developed in the recent years in a chaotic way along the main road.

Within the urban context/landscape four themes, objects of an accurated planning, have been identified; these are important cruxes around which to develop an overall idea.

The Municipality of Vogogna, in collaboration with the Competitions Office of the PPC Architects Association Foundation of the Province of Turin, **will select the best project/proposal using the present competition in order to assign the planning task under the clause 108 decree 163/2006 and following changes/modifications and inclusions**

The scripts must be submitted within and no later than 12.00 (noon) of the 15th February 2013.
